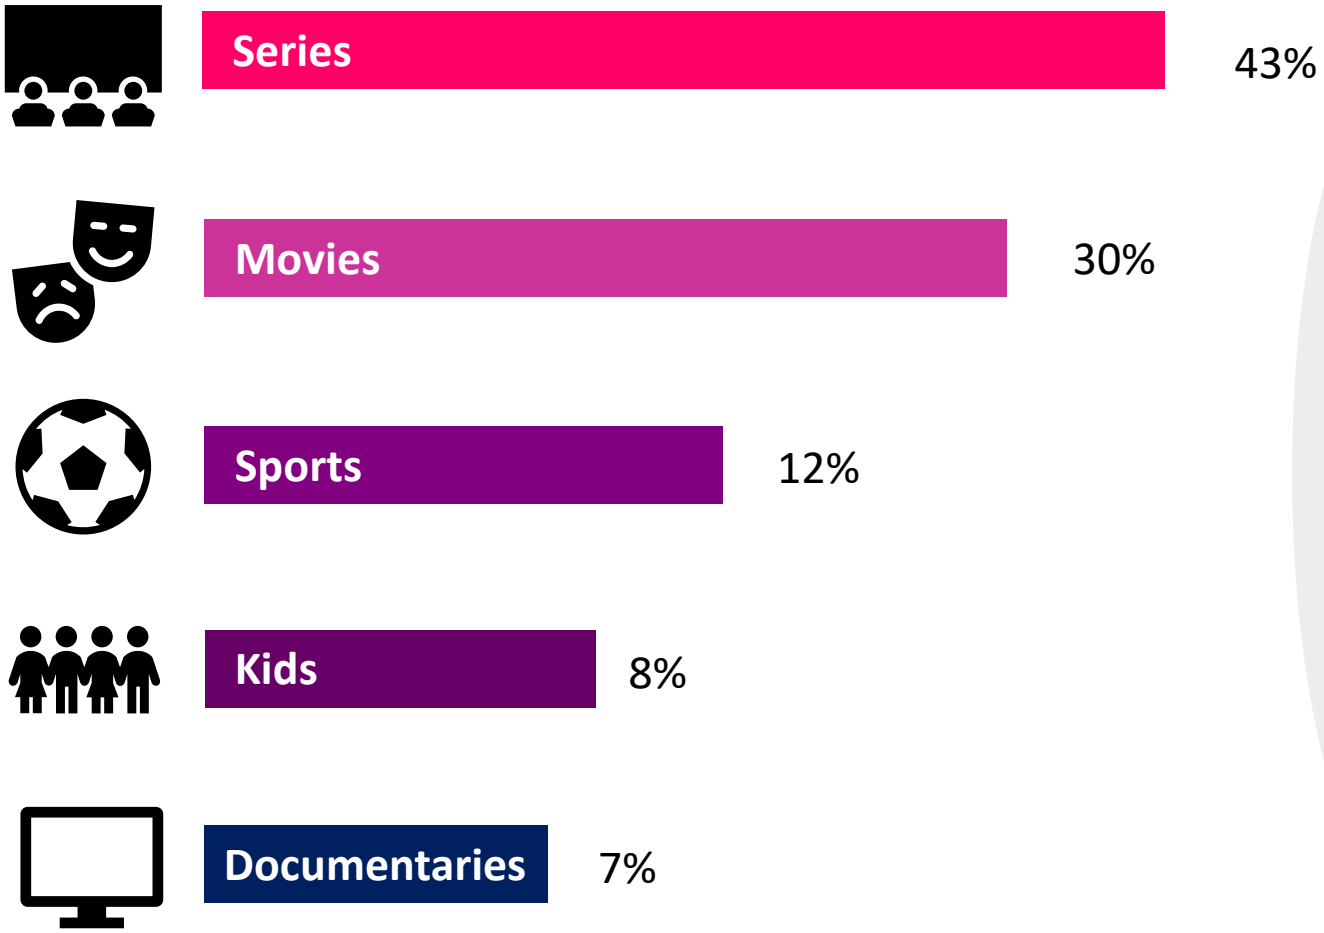
WHAT CONTENT PERFORMS BEST?



Key Insights

- **Series drive** longest sessions
- **Binge-watching** on weekends
- **Sports spikes evening & weekends**

KEY INSIGHT SUMMARY

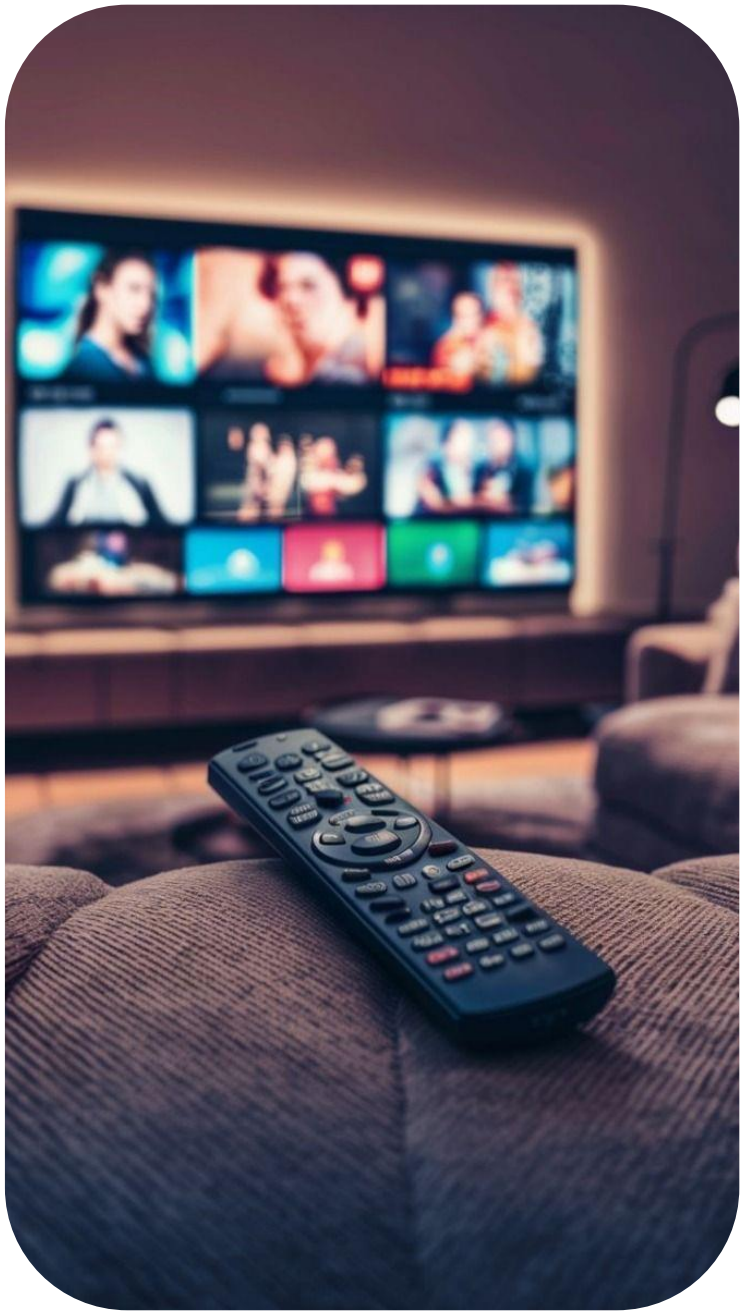
Evenings and weekends are our peak usage times.

Midweek (Tue – Thu) shows lower segment.

Young users (18-34) form our largest segment.

Series content drives longer sessions and higher engagement.

Engagement is concentrated in a small % of users.



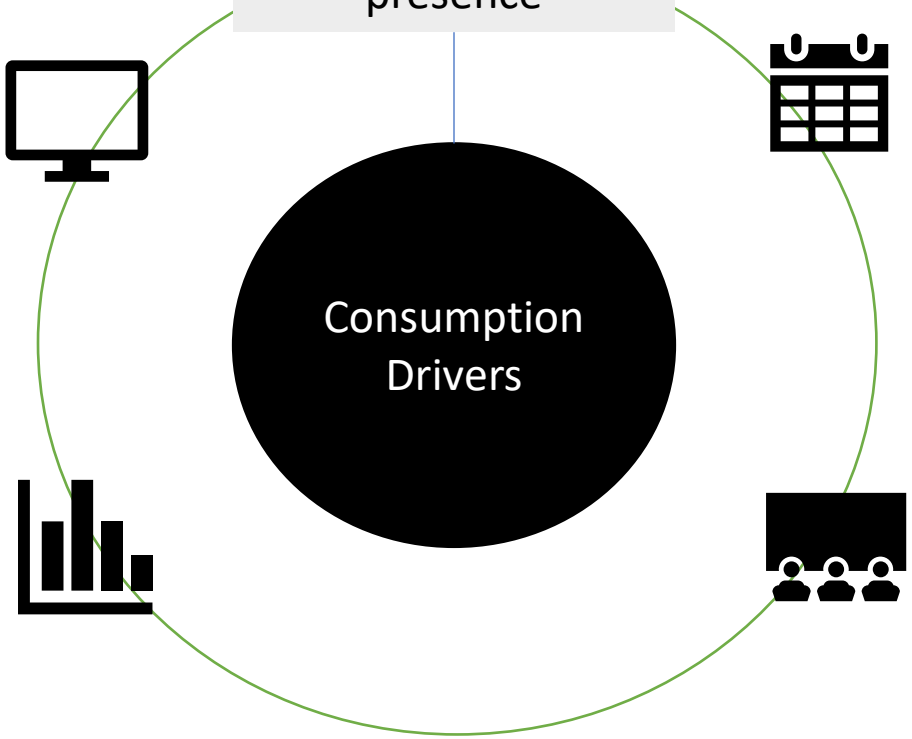
FACTORS INFLUENCING CONSUMPTION

What drives how and when users watch?

Time of Day
Strong evening presence

Session Behavior
Longer sessions lead to higher likelihood of return.

Day of Week
Weekends drive higher usage



User Demographics
Younger users watch more frequently.

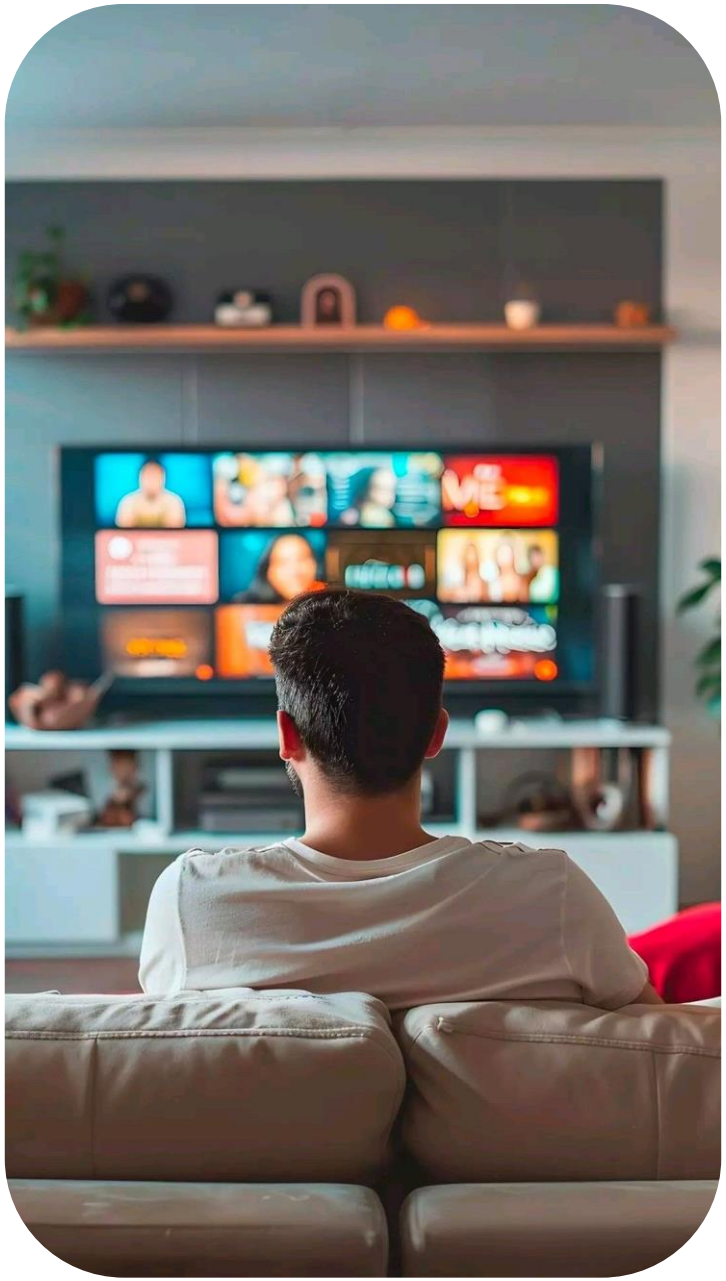
Content Type
Series & Movies for retention.

BEHAVIORAL INSIGHTS

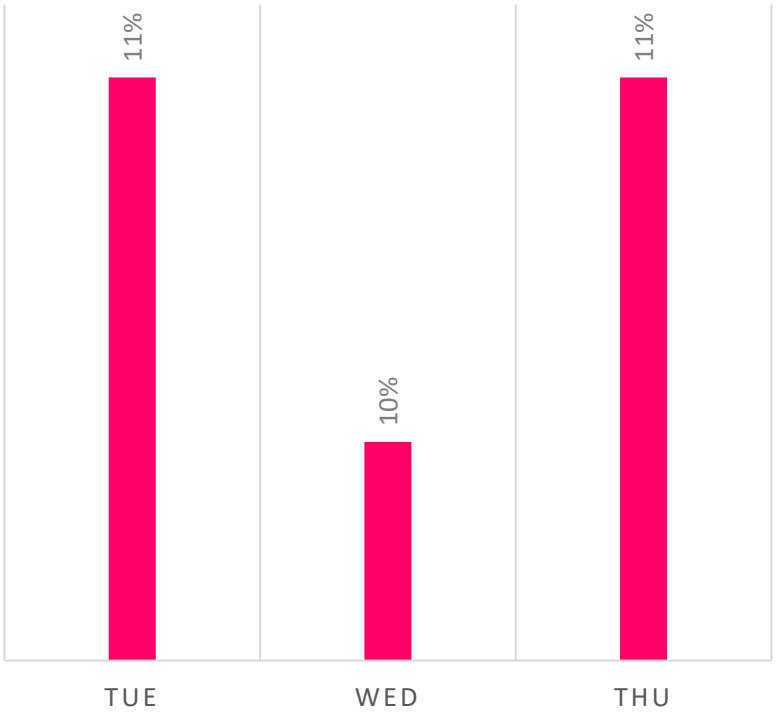
Users prefer bingeable content, especially series.

Drop-offs are more likely to occur on midweek days and after short sessions.

Engagement increases with personalized content and recommendations.



LOW CONSUMPTION DAYS IDENTIFIED



Opportunity

- Increase midweek engagement
- Introduce midweek content drops
- Run targeted campaigns on Tue- Thu

CONTENT RECOMMENDATIONS
